Smithfield, NC—(Globe Newswire) April 27, 2023 KS Bancorp, Inc. (the "Company") (OTCBB: KSBI), parent company of KS Bank, Inc. (the "Bank"), announced unaudited results for the first quarter of 2023.

The Company did not record any provision for loan losses during the first quarter 2023. The Bank adopted ASU 2016-13 "Measurement of Credit Losses on Financial Instruments" referred to as the CECL model. The Day 1 adoption of CECL decreased the provison for loan losses by \$1.1 million. The Company's unaudited consolidated total assets increased \$35.2 million, to \$581.5 million at March 31, 2023, compared to \$546.3 million at December 31, 2022. Net loan balances increased by \$14.6 million to \$428.3 million at March 31, 2023, compared to \$413.7 million at December 31, 2022. Total stockholders' equity increased \$5.2 million to \$37.5 million at March 31, 2023, from \$32.2 million at December 31, 2022. The increase in stockholders equity is primarily attributable to \$2.5 million increase in retained earnings as a result of net income plus \$1.0 million added to retained earnings resulting from the CECL adoption. In addition, the accumulated other comprehensive income decreased \$2.7 million for three months ended March 31, 2023 and compared to December 31,2022.

Commenting on the first quarter results, Harold Keen, President and CEO of the Company, stated, "The Banks loan demand is solid and we continue to increase in our deposit and loan base across our footprint. The continued rated increases by the Federal Reserve has certainly produced some compression in our net interest margin and forced the cost to borrowers to increase. In light of the interest rate headwinds, the Bank saw year over year positive earnings growth for the quarter. We believe the markets we serve are well positioned for continued growth." Commenting on national events during the first quarter, Keen stated, "During the first quarter of this year on a national level, there has been some unsettledness in the financial markets and with some large banking institutions. Unlike the banks making national headlines, KS Bank's capital, liquidity, and earnings remain strong and in compliance with our primary regulator's guidelines. KS Bank's loan portfolio is well diversified with businesses of different sizes across various industries in the five-county footprint we serve. "

In addition, the Company announced today that its Board of Directors has declared a quarterly dividend of \$0.25 per share for stockholders of record as of May 1, 2023 with payment to be made on May 11, 2023. The \$0.25 per share dividend represents a 25% increase of the previous quarter's dividend of \$0.20 per share.

KS Bank continues to be well capitalized according to regulatory standards with a Community Bank Leverage Ratio of 9.66%, compared to 9.44% at December 31, 2022.
