

MyCardRules – Debit Card Management

Manage Cards

Use the **Manage Cards** option within your KS Bank Mobile App to perform several actions related to your debit card accounts. These actions include:

- Viewing a card status
- Activating a card
- Reordering a card
- Suspending a card
- Reporting a card lost or stolen
- Accessing **Alerts and Protection**

New with the MyCardRules integration into **Manage Cards** through your KS Bank Mobile App, the following actions can be taken:

- Access **Alerts and Protection**
(NOTE: The availability of the following features may vary depending on settings and permissions.)
 - **Notification Settings** – Choose which notification method you want
 - The ability to be notified for ALL transactions by turning on the **Protection Options** feature
 - **Location** – Control where your card can be used
 - **Merchant Types** – Manage what types of merchant are allowed
 - **Transaction Types** – Manage what types of transactions are allowed
 - **Spending Limits** – Control spending through limits and thresholds

Managing Card Alerts and Protection

On a selected card's *Manage Card* screen, you can work with the card's **Alerts and Protection** to improve your card security and spending awareness.

The availability of the following features may vary depending on settings and permissions.

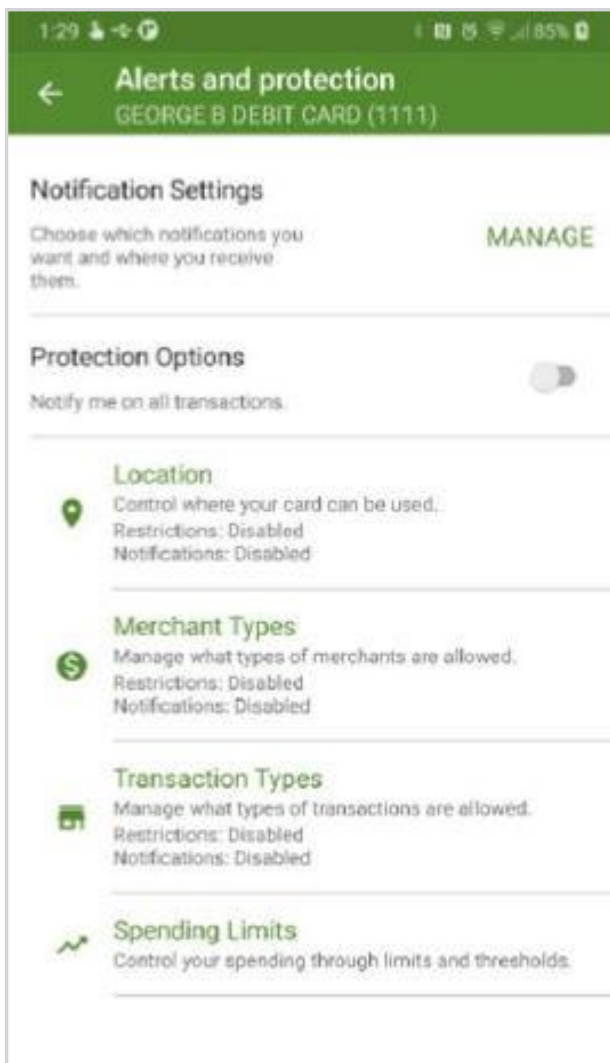

1. From the main menu, select **Preferences**.
2. Go to **Manage Cards**.
3. Select the specific Debit Card you want to manage.
4. Select **Alerts and Protection**.

The following images are examples of the **Alerts and Protection** screens.

Preferences > Manage Cards > [Card Name]

5. Choose a situation and follow the corresponding steps.

Work with **Notification Settings and Protection Options** to improve your card security and spending awareness. Manage your **Notification Settings** by selecting to receive either *Email* (default) or *Text Message* notifications for *Blocked Transaction Alerts* and other *Notification Alerts*. To be notified on all transactions, select the toggle to turn on the **Notify me on All Transactions** option in the **Protection Options** section.

Locations

Choose to *Block Transactions* and/or *Send Notification* for international transactions.

Situation

Steps
